- Set dimensions with stand in inch (W x H x D): 11.20 x 7.68 x 1.39 inch
- Set weight (lb): 1.58 lb
- Weight: 0.718 kg

Power
- Power consumption: (System on 5.43 W
- Power mode supported: AC powered

Outer Carton
- Gross weight: 4.2366 kg
- Outer carton (L x W x H): 36.1 x 26.3 x 25.4 cm
- Nett weight: 2.1376 kg
- Tare weight: 2.099 kg
- Gross weight: 9.34 lb
- Outer carton (L x W x H): 14.2 x 10.4 x 10 inch
- Nett weight: 4.713 lb
- Tare weight: 4.627 lb

Packaging dimensions
- Packaging dimensions (W x H x D): 34 x 24.2 x 10.9 cm
- Gross weight: 1.806 kg
- Nett weight: 1.0688 kg
- Tare weight: .7372 kg
- Packaging dimensions (W x H x D): 13.4 x 9.5 x 4.3 inch
- Gross weight: 3.982 lb
- Nett weight: 2.356 lb
- Tare weight: 1.626 lb

Product highlights

Smart Album
Smart Album allows you to create and manage albums, as well as to set up and adjust transition effects to your photo slideshows.

Unlimited memories
Your Philips PhotoFrame comes with an additional SD card slot enabling you to expand the storage space on your PhotoFrame offering plenty of space for all your memories - it's like having virtually unlimited space for your memories and photos! Also thanks to the Philips Memory card manager, you can easily copy and paste images between all your various types of memory cards.

Auto orientation
Automatic landscape/portrait recognition employs a sensor that recognizes PhotoFrame orientation and displays each photo in its proper mode.

Collage Pro
Remember the fun you had working with your photos in the past - such as cutting them and creating nice collections! Collage Pro is a unique and advanced feature provided by Philips digital PhotoFrame. Just like on other Philips digital PhotoFrames with Collage function, you can run collage slideshows automatically (random view). With Collage Pro, you can also edit and create collages by yourself. You can also easily create a collage even from multiples sources such as an SD card or USB pen drive.

High Pixel Density Display
The very best high density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colors as high quality prints.

imagen Pro
The unique Philips imagen enhancement technology automatically analyzes your photos to correct color and adjust for optimal contrast. imagen Pro is a more advanced image enhancement which includes the 3 essential elements from imagen to have more color accuracy, color depth and smart contrast. On top of these, imagen Pro offers enhanced skin color, sharper images and flicker-free photo viewing which is very important for still pictures.

PhotoFrame Manager
You can easily connect your Philips PhotoFrame to your computer via a USB cable. The PhotoFrame Manager is a simple to use drag and drop software tool that allows you to simply drag your photos from your computer to your PhotoFrame - it's really that simple! On top of this, the software enables simple editing like zoom and crop. You can even preview what you have edited before transferring to your PhotoFrame.

RadiantColor
RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the color on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.

Real wood with fine grain
There are plenty of digital photo frames in the market with ugly, gadget typ designs. They won't fit my home interior at all. Now, Philips comes with a PhotoFrame with a real wood front with a dark espresso color and fine grain which perfectly fits the simple and clean rear cover design. It not also suits your home decor but brightens up any room!
